The State Department's announcement said:

"The instructions pointed out the seriousness with which the United States Government views this situation and called for immediate and adequate action."

The consul at Juarez also was instructed to take all possible steps with the Mexican authorities there to secure release and protection of the officers.

State Department officials said the ransom would be paid as soon as information was had as to where and to whom the money was to be delivered. It has not been decided whether the United States would furnish the sum and charge it against the Carranza government or call upon the Mexican government to pay it direct.

(By Associated Press.)

He asserted the change from war to peace conditions would take just as long as the change from peace to war.

The first outstanding fact of the present situation was the alarming adverse trade balance, he said.

The import restrictions which will terminate September 1st, he said, had given British manufacturers an opportunity of making a dealing in goods which otherwise would have been hurried here from foreign countries.

The national debt, he declared, had grown from 641,000,000 pounds to 7,800,000,000 pounds.

FAMOUS COMEDY AT CHAUTAUQUA TUESDAY NIGHT

Tuesday night is play night at the Chautauqua.

The management promises 300 laughs, much mystery and much amusement. It is the big entertainment feature of the week and a large audience is expected as tickets have been secured by many out-of-town folks. The performance begins at 8:00 o'clock.

The play is Geo. M. Cohan's "Seven Keys to Baldpate," said to be his most successful comedy and a mystery play as well. It is to be played by Percival Vivian and his company of twelve Broadway players. Mr. Vivian himself appearing in the leading role.

Mr. Vivian will be remembered for his long association with Ben Greet in Shapenspearean productions and it was his company that gave the delightful production of "The Comedy of Errors" at Chautauqua last Summer.

Mr. Vivian has secured the original New York stage setting of "Seven Keys to Baldpate," cut down and modeled to fit the Chautauqua platform. The members of the cast have been carefully chosen from among artists direct from Broadway successes of last winter.

STRONG APPEAL MADE BY NOTED RED CROSS NURSE

Mrs. Pirie Beyea, famous Red Cross nurse, gave one of the notable addresses of the Chautauqua Saturday afternoon, proving a delightful speaker and holding her audience spellbound in her vivid picturing of her experiences in over seas Red Cross work.

The sympathy of the audience, warmly gauged in the introductory talk, was retained as she took up her subject, one of vital interest to every listener, "Keeping the Home Town Healthy."

Mrs. Beyea impressed the fact that the necessity of fighting diseases was as great as fighting a visible enemy, was really a most important war work with a legitimate claim on war funds. As in other communities, she asked the pertinent questions, were you ready with health measures when the flu came? Were you able to cope

movement to make health work effective and gave the assurance that the Red Cross would lend the helping hand in every possible way. She pronounced the new Hughes' Health bill as wonderful and one of the topics most discussed all over the state.

RED CROSS NURSE SPEAKS AT CHURCH

Mrs. H. Pirie Beyea, who saw more than two years service in the war zone nursing the wounded soldiers of the allies, who delivered a forceful lecture on "Keeping the Home Town Healthy," at the Chautauqua Saturday spoke at some length in Grace M. E. church, Sunday morning, relating some of her experiences during the war and pleading for a united effort to better health conditions generally in the community.

Mrs. Beyea is a fascinating speaker and made an appeal for more attention to personal and public health.

After her address at Grace Church she was hurried to Chillicothe by automobile where she filled her engagement on the Chautauqua program for the afternoon.

A FORMER SOLDIER JUST FROM FRANCE IS PRAISING DRECO

Sergeant Minor of Newark, O., says:

"My back was weak, kidneys gave trouble, and had pains constantly, in my right side."

While most of "our boys," returning from France, are in good health, we sometimes see one who is not. The old saying "What is pie for one, is poison for another," was true of Army work and discipline. Such was the case with Sergeant T. J. Minor, 78 Hoover, St., Newark, Ohio.

"Upon my return from France, I found by back was weak, kidneys out of order, and stomach seemed unable to digest my food as it should. I had a pain in my right side constantly; was quite nervous, slept poorly, and often had dizzy spells. Looking around for a good medicine to put me in shape, I decided on Dreco, as so many people around here were praising it. Am glad to report that it has done me a lot of good for my stomach gives me no more trouble; the pain is gone from my right side; I sleep well; have a good appetite, and the dizziness has stopped. I strongly recommend Dreco, for I believe it is a fine medicine."

Dreco is a scientific combination of good, old fashioned roots, herbs, barks and berries. It contains absolutely no mineral salts, or harmful metallic drugs. It has been recommended strongly for stomach, kidney, liver, nerve and blood disorders, and already there are hundreds of men and women in this section, who are taking it with excellent results.

All good druggists now sell Dreco, and it is highly recommended in Washington C. H. by Frank Christopher.

At The Same Service, Sunday Morning, Farewell is Said to Rev. McWilliams.

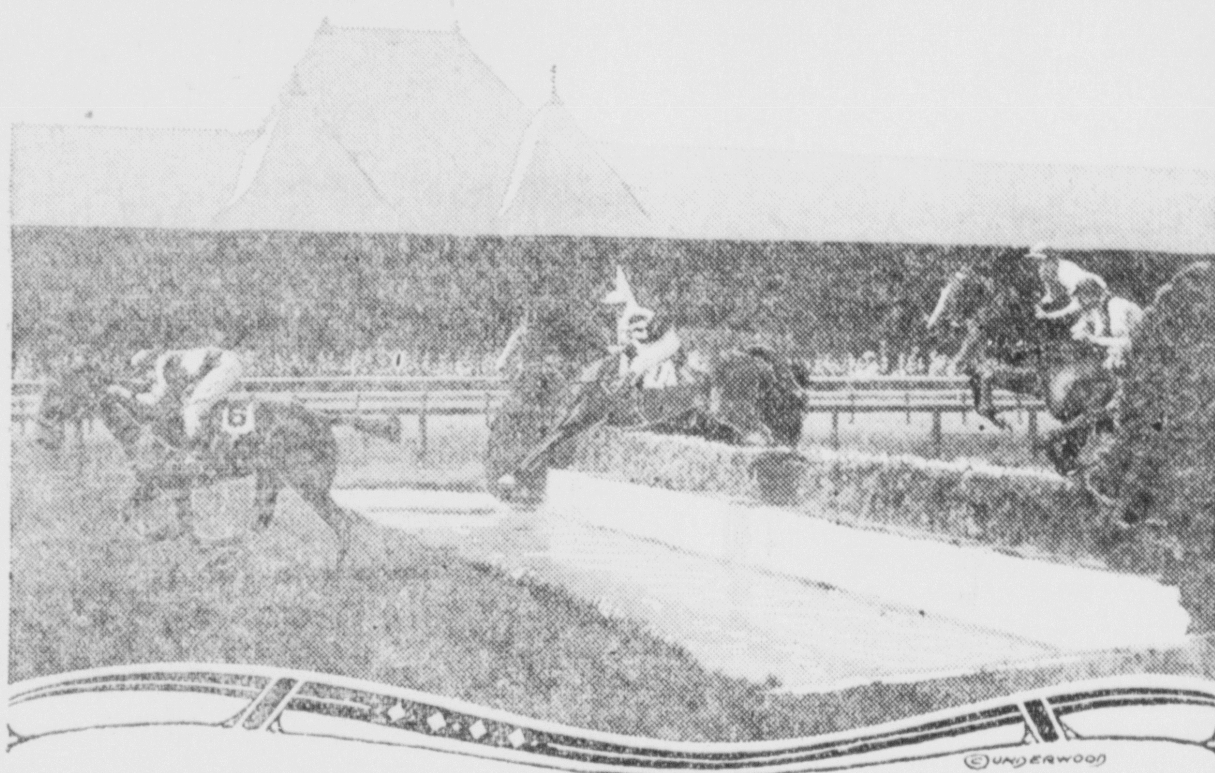

Acting Pastor Leaves a Record of Splendid Accomplishment and Many Loyal Friends.

The Sunday morning service at the First Presbyterian church was in deftly marked in the year's calendar. The pastor, Rev. Wm. Boyton Gage, had returned from a year of overseas service the afternoon of the previous day and both pastor and acting pastor, Rev. J. L. McWilliams, were in the pulpit. The atmosphere was one of mingled joy and sadness—joy that the pastor had safely returned to his people after the perils of the year; regret that in regaining him was entailed the loss of the acting pastor, who had filled the pulpit with exceptional ability and tact in handling every situation, his sympathetic understanding and unselfish devotion to church interests in the pastor's absence greatly endearing him to the people.

No more eloquent tribute could be paid him than the simple statement that Rev. Gage returns to find his church in a thriving condition at the season's lax period, with the church vitally alive in all of its branches.

The hour which followed the benediction has no parallel in church records, people crowding to the door to extend heartsome welcome to Rev.

AN EXCITING MOMENT DURING THE SARATOGA STEEPLECHASE

This is one of the best pictures ever taken of a water-jump. It shows four horses in various stages of the leap. The photo was taken during the recent steeplechase at Saratoga.

Gage and returning to the front of the auditorium to express to Rev. McWilliams their appreciation of his services.

Owing to the fact of Rev. Gage's late return, Rev. McWilliams conducted the usual services. Rev. Gage, offering after the prayer, a brief glimpse of his work as it had developed in one of the most dramatic days of the year—the tragic Easter of 1919. With deep emotion the speaker depicted the scene in the little French cemetery on that day as it had so deeply impressed him.

Rev. McWilliams fittingly brought his work to a close with the last of

a series of three sermons on the Bible, his theme: "The Bible as a Doctrine and Devotional Study." Following a particularly able presentation of this use of the Bible, his affecting words of appreciation of the co-operation of the church people during the last year brought tears to many eyes.

Miss Dorothy Rogers favored the congregation with a beautiful contralto solo.

MUCH DAMAGE BY GRASSHOPPERS

Many farmers are reporting considerable damage to their corn and pastures as result of the ravages of grasshoppers, which have been increasing in numbers the past two or three years until they are becoming one of the recognized pests to growing crops.

So far there has been no organized effort among the farmers to combat the grasshoppers by the use of poison or other method, and if the numbers continue to increase concerted action must be taken to prevent serious damage to crops.

SPRINGFIELD JUSTICE DIES.

Springfield, O., August 18.—John Henry Bloese, former Clark County Commissioner and Justice of the Peace for more than 35 years, died Sunday at his home in Tremont City. He was 81 years old. Squire Bloese cast his first presidential ballot in 1860 for Stephen A. Douglas, and had not missed an election since.

TALENT OFFERED AT CHAUTAUQUA DRAW CROWDS

Fighting Americans Offer Diversion for Sunday Programs.

Dr. Bohn Monday night and Big Comedy for Tuesday Night.

"The Fighting Americans," a singing band of American soldiers who served in the trenches, enlivened the Sunday program of the Coit-Alber Chautauqua. The afternoon program was largely given over to these young and energetic soldiers.

The evening performance, which was preceded by another concert by "The Fighting Americans," was featured by the appearance on the lecture platform of Frank Branch Riley, an attorney of Portland, Oregon.

This lecture was made doubly interesting by the use of stereopticon slides which portrayed the magnificent and awe-inspiring scenery of the Great Northwest. The lecturer brought out the wonder of this region in a truly remarkable manner.

Lieutenant Jean A. Picard spoke to a large audience Saturday evening. The witty jabs of this man who served through the Great War brought forth frequent applause from his audience.

Lieutenant Picard's address was given after a concert by the Charles Edward Clarke Company, a trio of talented musicians.

At the Monday afternoon program, Dr. Cecile Grisel, the only American survivor of the "Ancona" delivered an interesting lecture under the head of "Italy, the War and Foreign Born Women."

A high class program of instrumental music and some of the famous compositions of the Czech composers was given by Hruby's Czech-Slovak Quintette, with Josephine Martino, soprano.

Dr. Frank Bohn will speak Monday evening on "Revolutionary Europe."

Attention is called to the fact that the Tuesday program will consist entirely of the presentation of "Seven Keys to Baldpate" by Percival Vivian and Company. This play is George M. Cohan's great success and is one of the most novel comedies of mystery ever written.

There will be no afternoon program on Tuesday. Large audiences have attended each session.

Even if it were cold in summer and hot in winter, we suppose some folks would be kicking about the summer coal prices.

STRIKES COSTLY TO WORKINGMEN

(By Associated Press.)
Winnipeg, Man., Aug. 17.—Canadian working men lost \$7,000,000 in wages in June and slightly more than half that amount in the preceding month, according to estimates.

The Winnipeg strike alone cost the workmen several million dollars. Board of Trade officials believe the economic loss to merchants, manufacturers and the public was at least 100 percent more than the labor loss.

In June, the eighty strikes in Canada involved 87,917 men, women and children. The officials estimate shows a loss of about 1,445,021 working days. The average wage involved in the Winnipeg strike was about \$5 a day. In May there were 84 strikes involving 77,688 workers who lost \$93,816 working days.

LIVE STOCK SHOW PAYS BIG MONEY

Premiums, Totalling \$10,000, Are Offered For Shorthorn Event Alone at State Fair.

BREEDERS ARE VERY ACTIVE

Second Annual Percheron Exhibition Will Be Another Outstanding Feature.

Featured by a \$10,000 shorthorn event, the live stock show in connection with the Ohio State Fair, the last week in August, will have but few rivals in the nation, according to breeders who are entering their prize stock in competition for the liberal premiums that have been provided.

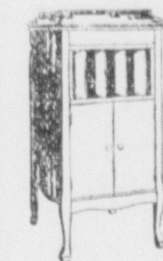

Always famous for its show of live stock, the state fair this year will offer an extraordinarily attractive list of events for cattle, horses, swine and sheep. In the cattle department alone the premiums total \$25,000, of which \$10,000 has been put up for the big shorthorn event on Wednesday. This shorthorn classification is the largest and the awards higher than at any state fair in the past.

Breeding for better stock has been increasing in Ohio for several years, and was given a particularly strong impetus during the war. It is to encourage the breeding of pure-bred animals that the state fair is holding out special inducements. Prices for all live stock have advanced materially and this has aroused greater interest among breeders. At present there is strong demand for both beef and dairy cattle of the better type.

Another outstanding live stock event of the fair will be the second annual Eastern Percheron Breeders' show, with prizes amounting to \$4,650, the largest ever offered except at the Panama-Pacific exposition in 1915. The futurity classes, good for \$1,500, have been thrown open to the world.

The Ohio State Fair boasts the best sheep show in the country, and this year's exhibition is expected to measure up to standard. The sum of \$6,500 will be distributed in this department. Premiums offered for swine run in excess of \$7,300.

Fees and cattle will be judged at the immense Coliseum, where seats for 6,000 persons

It's True Too

There is more truth than poetry in the statements made by President Howard, of the Iowa Farm Bureau Federation, when he told the Senate and House committees, on Saturday, that unless "capitalistic monopoly and organized labor stop profiteering in goods and labor the next cycle of seasons will effect a condition of living now undreamed of."

That's not a wild statement by any manner of means. It seems to come nearer hitting the center of the target, at which we have all been shooting, for some time, than any of the other pronouncements.

Capital and organized labor if we, standing on the outside of the circle, can properly sense the cause of the commotion, seem to be in a mad race for money.

The producers in the farming communities are not getting anything like the percentage of increase which market prices of foodstuffs to the consumer carry.

The whole problem seems to be settling down to a condition where capital is perfectly willing to increase the price of labor but, coupled with that willingness, is a determination to levy and collect from the consumers an increase which, in its proportion, maintains the same old margin of profit capital has always demanded in excess of labor.

While capital grants organized labor's demands for an increased wage, that and more is taken away in living costs so that, relatively, the wage earner seems about in the same position as he was when he received a very much lower wage. Falling down between advancing capital and organized labor is the producer—the farmer and raiser of live stock. He has made more, true, but his ratio of increase is far below that of capital and organized labor.

Those Reds

Those Cincinnati Reds—our Reds, we call them now, and there are more folks who were never known to take any interest in base ball before, coming in on that partnership of "our" every day—continue on their way to the National League championship.

They arrived in New York leading the National League flag rush procession by a margin of four and one-half games, over their nearest challengers—the Giants. They slipped through the subway over into Brooklyn Friday, having humbled the proud Giants, on their own grounds, cheered on by forty thousand wild backers each day, four games out of the six played and leading the league by a margin of six and one-half games.

Those Reds came and saw and conquered. They met the Giants and they were theirs.

The highest honors in base ball look, now, very like a sure thing for the Cincinnati club and as a consequence there are few people in southern Ohio and Indiana and northern Kentucky who can even be distracted from base ball even by foodstuff price investigations.

Speaking of "Right"

With the launching of the campaign against, or in search of foodstuff hoarders and profiteers and the inquiry into private affairs, by government agents, which such a campaign entails, the old assertion of the sanctity of private property and individual activity, against governmental interference, is again to the forefront.

The forefathers jealously guarded, in the bestowal of government authority, the rights of individual citizens and wisely restricted, by limiting the special grants of governmental power, in the constitution, so that the individual citizen would be safe from interference in the pursuit of happiness (which meant business) from any fetters which an all powerful central government might seek to forge upon him.

In times of war or great national danger vast powers may be exerted by the government which, under such conditions, becomes supreme, in everything, to the individual, but in times of peace, aside from special statutory enactment, by the people's representatives in Congress, the right of the government to take things into its own hands, has always been the subject of peremptory challenge by those whose property is seized or activities called into question.

It is not strange, therefore, that dealers and middlemen, both of large and small business, should complain about the present campaign as an unwarranted interference by the government with private property and private rights.

That contention though, in view of present conditions, and the present, unmistakable public demand, appears more technical than substantial. It bears the appearance of an attempt to use a sacred right as a cloak for guilt.

There is no good reason, it seems, why the honest dealers should not make haste, to align themselves with and become a part of the government machinery now grinding.

POETRY FOR TODAY

THE ROSE GATE.

The house had always hollyhocks.
White flagstones leading to the door,
And Marigolds; but now it wears
A glamored spell it never wore.

Blue smoke wreathes o'er the low-beamed roof;
An arch of roses at the gate
Shakes dew-wet petals on the path.
Where starry fireflies flicker late.

But it is not the friendly smoke,
The fireflies or a falling rose,
That urge my steps along this path
When moonlight fills the garden-close.

The white moths haunt the hollyhock
The dappled thresh calls to his mate;
It is not moth or bird or flower
I seek beneath the arching gate.

U. S. EXPORTERS STUDYING NEEDS OF THE LATIN

(By Associated Press)

Denver, August 5.—Denver exporters are rapidly pushing open the gates of commercial South America by giving greater attention to the needs of Latin American countries, by more sympathetic deference to business customs prevalent below the equator, by more careful packing and by retraining from hurrying the South American merchants to pay their bills.

Lessons derived from the experiences of Denver manufacturers may be benefit to those of any section of the country. Business circulars are being issued in Spanish and correspondents familiar with that language are being employed so as to approach the customer in his own language.

Realizing that much of their merchandise must be transported by mules over the Andean passes, the Denver men are limiting the weight of packages of machinery to about 250 pounds and are packing them in cases composed of heavy planks reinforced with steel bands.

Extension of credit is being arranged through the assistance of certain New York banks.

Denver exporters find that it is best not to introduce innovation with painful suddenness.

There is scarcely a South American country with which some Denver manufacturer has not established commercial relations. The Andean mines of the west are reached by way of the west coast of South America are the best customers for the class of machinery which Denver has to offer.

One local exporter of mining machinery reports that he has received more inquiries from Latin America in the past six months than ever before during a corresponding period.

NEW COTTAGES FOR INSTITUTION

The state institution for feeble-minded at Orient and the state hospital at Gallipolis will have additional facilities for a total of 1170 patients just as soon as improvements, which are well under way are completed.

This week two additional cottages will be opened at Orient and 200 additional patients can be cared for there. As practically half of the 88 counties of the state have waiting lists, it is anticipated that these additional cottages will be filled within a few weeks.

The board of administration made an inspection of these new cottages during the past week.

The only time some people sing a psalm of joy is when they sound their own praises.

After all, it's *mileage*—and nothing but mileage—that you pay for in any tire.

And nothing but *extra-quality* and quantity of materials, and *extra-quality* of workmanship will put *extra-mileage* into a tire.

On its record of average mileage delivered last year—as shown by the following table—the HOOD EXTRA PLY (figured on a cost-per-mile basis) stands as the *lowest price* tire on the roads to-day.

RANDOM NOTES

SOCIAL : PERSONAL MENTION : CLUBS

The war between the unionized actors and the theatrical managers is merrily on, and Monday night sees twenty-one of the unionized stage stars in the "Big Show" put on at the Lexington Avenue Opera House New York.

Among the stars announced for the Lexington Avenue opening, which will be a vaudeville production, were Frank Bacon, Ethel Barrymore, Lionel Barrymore, Sam Bernard, Barney Bernard, Ed Cantor, Marie Dressler, Raymond Hitchcock, Blanche Ring, Joe Stanley Ivy Sawyer, Frank Tinney, Pearl White, Van and Schenk, Edwynn and Frank Fay.

One of the closed playhouses reopened Saturday night, reducing the number of closed theaters to eleven and the number open to twelve.

A dismal rain was falling the last of the week when the crowds began to flock along the Rialto, but it wholly failed to dampen the ardor of the pickets who paraded in couples, beneath umbrellas, before the playhouses which have remained open despite the strike.

Many prospective theater-goers heeded their appeals not to patronize the picketed theaters, but virtually all of the dozen houses remaining open reported capacity business.

"Honoring Miss Pauline Gilliland the fiancée of Elbert R. Babb, Miss Lois Messenger, Mrs. H. C. Messenger and Mrs. R. C. Leslie of Springfield entertained at the Messenger home in Xenia Wednesday afternoon and evening at cards. In the afternoon there were seven tables for bridge and in the evening five tables of 500. No time has been set for the marriage of Miss Gilliland to Mr. Babb, but the wedding may take place in the autumn. Miss Gilliland's home is in Deland, Fla., but she is now in charge of the Country Club at Fortoria."

The above item appearing in the Sunday issue of the Ohio State Journal is of more than passing interest to many friends in this city the former home of the Gilliland family.

NEW ATTENDANCE RECORD IS MADE AT BIBLE SCHOOL

A new attendance record was made at the Church of Christ Bible School yesterday, when the total number present was four hundred and twenty-one.

The highest previous record was 409. The goal set for last Sunday was 410, plus. This marked the close of the nine weeks contest with Wilmington. A keen rivalry has been maintained during this period and each school has made about 3500 points.

In the final count Wilmington was found to be in the lead by 46 points thus winning the contest. Despite the hot weather the usual summer "slump" the local school has maintained an average attendance of nearly 500. A joint meeting with Wilmington school will be held at S. Anna in the near future.

BAD BEGINNING MADE GOOD END FOR WASHINGTON

All-Stars Are Defeated 8 to 7 in Interesting Contest Here Sunday.

Pinto Not Equal to the Occasion and is Removed in The First.

After an uphill fight that lasted ten innings, the Washington Athletics won out over the Springfield All-Stars with one run, the final count being 8 to 7.

Although during the first innings the game was a rather ragged exhibition, the latter part of the game was one of the best played on the local lot. Sensational support was afforded the hurlers, at critical stages and it looked like an all night battle until the tenth, with one down, Cottrell, an old time Athletic star in the box, who was holding down the hot corner, smashed one that was just beyond the extended fingers of the right fielder and Adams romped home.

Pinto, the portside who has been winning a strike-out record for himself in other cities found the going too rough and was removed in favor of Morris after just one third inning.

The big fellow has the goods and looked like the real thing but seemed unable to control his offerings. The fans would like to see him get another chance on the local lot.

The big sensation of the afternoon was a running, one hand catch by Adams in right. It looked like a sure hit but Sergeant Adams made a wonderful catch. Nip Jones came in for his share of the laurels by grabbing off another bingle that looked good for a two bagger.

Not to be out-done, Cozier, the visitors' center fielder, grabbed one off his shoe tops but came up smiling with the ball grasped in his bare hand. Never before was there seen such phenomenal work in the local gardens as that of Sunday. Corwin, at short, was a busy person with seven chances and not a slip.

Adams got a big hand when he came up in the eighth and responded by slamming the first ball pitched to him for a four bagger over the right field fence.

Out of five times up, Noon grabbed a clean sacrifice and three bingles. The old swatmen were on the job and Duffy was reached for 14 nice bingles.

Morris' work in the box was of the variety that wins ball games and he seemed to get better as the game progressed. Fanning three men in order in the ninth is always considered a real piece of pitching.

Captain Stark of Camp Sherman again pleased the huge crowd by his unerring judgment of the plays.

Beautiful Ohio State Fair Grounds As Snapped From an Airplane

THIS photograph was taken recently by an army aviator who flew over the fair grounds at Columbus. The grounds were never more beautiful than this year, and afford an ideal place for an outing. During the past year considerable money has been spent in improving the buildings and grounds.

SNAPPY RACE BILL 2,000 CHILDREN ASSURED AT FAIR IN BIG PAGEANT

Early Closing Entries Smash All Records—Purses \$11,500. Columbus Schools Will Appear in State Fair Offering.

The snappiest horse-racing ever witnessed on the fast Ohio State Fair track is in prospect for the exposition the last week in August. Early closing entries have smashed all records and these have been so large, it is said, that it may be necessary to split the events in order to accommodate the field of horses.

There are 33 entries in the closed event for Ohio three-year-old trotters on Thursday for the governor's purse of \$1,500; 34 entries for the 2:16 pace on Wednesday for \$1,000, and 42 entries for the 2:30 pace on Monday for \$1,000.

The program calls for three races on each day of the fair. Purses amount to \$11,500. Horsemen declare the track at the state fair grounds is one of the fastest half-mile speedways in the country. The half-mile track is generally popular among racing enthusiasts, it is pointed out, as it gives spectators an opportunity to cover the course twice. A large number of "favorites" has been booked for this year's racing.

FRUIT EXHIBIT AT FAIR PROMISES TO BE LARGE

Although war activities and weather blight interfered severely with the exhibition of horticultural products at last year's Ohio State Fair, Buckeye growers of fruit are promising a strong come-back at the coming exposition in Columbus the last week in August.

A state fair hardly would be such in Ohio without a large exhibition of horticultural products. As a rule, Ohio growers provide a show that has but few equals, and the horticultural building always is filled with large and admiring crowds.

While not a bountiful crop in general, there is much fine fruit in Ohio this year and it is expected that the best from orchards and vineyards will be on display at the fair, in competition for the \$2,500 in premiums. E. C. Cotton is superintendent of horticultural exhibits. There is a class for county fruits.

The usual number of entries are expected in the departments for flowers and plants, woman's work, culinary products, textile fabrics and domestic manufactures and fine arts. A class has been arranged for exhibits by women's clubs.

FREE DAYS AT STATE FAIR.

Women will be admitted free to the Ohio State Fair, the last week in August, on Monday, the first day of the exposition. On Tuesday, all soldiers, sailors and marines will be permitted to pass the gates without charge. The G. A. R. button will admit veterans of the Civil war, while all other soldiers will be admitted if they are in uniform or show their discharge papers. Children go in free on Friday.

HEROIC RAINBOW BAND PLAYS AT STATE FAIR

THE Rainbow Band, one that is destined to have a page in the book of fame, will render daily concerts at the Ohio State Fair the last week in August. Part of the beloved Rainbow Division, these soldier-musicians, who performed notable service in the war, have a band that is one of the best in the country. All was not music with these men while they were in service abroad. For 18 months they acted as stretcher-bearers and messengers while the Rainbows were pressing on to victory, and at the same time furnished music that kept their comrades in good cheer. All visitors to the fair will have opportunity to hear the Rainbow band, which is directed by Lieutenant W. A. Sands.

Two thousand Columbus school children will take part in "The World Forward," the reconstruction pageant which will be presented at 4 o'clock each afternoon at the Ohio State Fair the last week in August. It is planned to be the most elaborate and distinctive yet undertaken by the Columbus municipal department of public recreation, and will be staged in the big coliseum, in which the great pageant, "The Wayfarer," was presented at the recent Methodist centenary celebration.

Striking and stirring episodes of a patriotic nature are promised, with 10 folk and esthetic dance numbers, presented by large groups, and solo numbers of a captivating and inspiring character. There are also will be six pantomimic interludes, carrying the story forward to the point where it connects with the interpretative dances. Brilliant processions, too, will mark the climaxes, and the musical accompaniment chosen is of an impressive kind.

The pageant has been composed and will be staged by J. Clarence Sullivan of Columbus. Special costumes have been made for all of the participants. Several original dances have been devised to interpret the themes of the special episodes. Paraphernalia to be used in the spectacle, which is free to fair patrons, is being constructed and decorated by pupils in the manual training classes of Columbus public schools.

CAPITAL CITY TO SWELL STATE FAIR ATTENDANCE

Columbus people are planning to attend this year's state fair as never before. Tuesday has been designated as Columbus day at the exposition. Mayor Karb and the Columbus Chamber of Commerce are urging residents of the Capital City to attend the fair and show their appreciation of the exposition, which yearly attracts many thousands of people from all over the state to Columbus.

The Manufacturers' and Jobbers' association of the Columbus Chamber has taken over one of the big buildings on the fair grounds in which it will conduct an exposition of Columbus-made products. The Chamber also will operate an information booth and assist in directing fair visitors to rooms.

PLAN UNIQUE DAIRY SHOW FOR STATE EXPOSITION

Visitors to the Dairy Products building at the Ohio State Fair, the last week in August, will be able to see through a glass partition machinery and apparatus that makes it possible to take the milk from the cow, strain, clarify, pasteurize, separate and bottle it. Part of the cream and milk will be made into ice cream, butter and cheese for immediate consumption.

Thus, one may observe, from step to step, the various processes of handling dairying products in the most sanitary, scientific and practical way.

ARRANGE TOURNAMENT FOR OHIO FISHERMEN

Fishermen of Ohio are to have a big time at the State Fair the last week in August. Plans are on foot to conduct a fly and bait casting contest, to the winners of which medals and other prizes will be awarded.

The splendid aquarium, opened at last year's fair, when it was filled with crowds all week, will be one of the show places of the exposition again this year. Fish from Ohio waters will be on exhibition, in addition to wild-life specimens from the woods of the state.

Students to Do Judging.

Four cash prizes of \$35 each will be paid students in the College of Agriculture, Ohio State University, who show the greatest ability in judging horses, beef cattle, sheep and swine at the Ohio State Fair, the last week in August.

Smocks have come to be thought of as the very prettiest of informal garments. They are much prettier than the bungalow or cover-all aprons which young matrons have taken to wearing for housework and gardening and when developed in rich materials they are worthy of a place in milady's more formal wardrobe. Here are two. The one on the right is of the more informal type, which may be worn about the house on a warm afternoon.

TIMES CHANGING HOTEL MEN HOLD SHOW IN CHICAGO

(By Associated Press.)

Chicago, August 18.—The Hotel Men's Show, held last week in connection with conventions of the Illinois Hotel Association, the International Stewards' Association, the Hotel Men's Mutual Benefit Association, and the Northwestern Hotel Men's Association, was one of the largest exhibits of manufacturers relating to the hotel industry ever held in this country. It was said, and so successful that the show is to be made an annual event in Chicago, according to F. W. Payne, its manager and the vice president of the International Exposition company.

"There are to be two big meetings of the hotel men each year," he said, "one in the spring and the other in the fall. The first will be held in Chicago and the second in New York." Special interest attached to the recent show because of the desire of the hotel men to learn how their competitors were planning to meet the changed conditions brought about by national prohibition. Questions along this line were answered at the show by the taking of exhibit space by five times as many producers of soft drinks, soda fountain supplies and equipment as had ever before exhibited at a similar exposition.

"The hotel men almost without exception are turning their bars into soda water fountains, ice cream parlors, coffee rooms or cafeterias," Mr. Payne explained. "Many have already effected the change but probably the majority are studying the possibilities of various plans as applied to their particular locations."

BOY IS TAKEN BACK BY FATHER

Albert Adams, of Columbus, father of Ernest Adams, 14-year-old had picked up in this county recently while begging, has taken the lad back to Columbus and made promise that he would give more attention to the welfare of the youngster than heretofore.

It developed that the father, or rather the foster father, had left the lad alone at a boarding house, and the boy took some articles which did not belong to him, and then, fearing the anger of his father or prosecution, fled.

It was while seeking something to eat at a farm house eight miles southwest of this city that the boy was taken in charge and held until his father could be located and come after him.

Sheriff Hall finally located the father and he came at once, stating that he had conducted a widespread search for the lad, even returning to their former home in New England.

FIRST LYNCHING IN OLD MEXICO

(By Associated Press.)

Mexico, City, July 26.—(By Mail)—Details of the lynching of Juan Galvan, a prominent resident of the village of Zaragoza in the state of San Luis Potosi, have just been received in the capital and El Demócrata, in publishing the story, declares this is the first instance of lynching recorded in Mexico.

Galvan was publicly accused by the pastor of a church in Zaragoza of being the person who robbed the image of a virgin in one of the churches of gold and jewels valued at 10,000 pesos. The words of the curate inflamed his hearers, who dragged Galvan from his home, built a funeral pyre and upon it tortured the unfortunate man until he died. The curate has been detained by the authorities as the author of the crime.
